

Designing Dreams, Building realities!

Welcome to TECS!

TECS was created to provide comprehensive architectural design and decoration solutions for our partners.

With a unique approach and professional experience, we create unique environments that meet the needs and preferences of our clients.

At TECS, we are dedicated to delivering high-quality services. We work closely with our clients to fully understand their needs and create solutions that meet their requirements.

Our expertise allows us to provide functional and aesthetic environments tailored to the individual identity and character of each project. With innovative thinking and creativity, we design spaces that combine functionality, aesthetics, and subtle elegance.

At TECS, the value of collaboration and communication is fundamental. We carefully listen to the needs and preferences of our clients and work together to create personalized solutions that reflect their aesthetics and necessary functions.

Our goal is to exceed the expectations of our clients by offering exceptional quality in every project we undertake. Discover the experience of architecture and decoration with TECS.

Allow us to guide you and create a space that reflects your value, personality, and needs.

Architecture & Interior Design for Commercial Spaces

We highlight uniqueness!

At TECS, we approach each project as a new and exciting challenge, aiming to create personalized design solutions that reflect the uniqueness and individuality that each project deserves.

With years of experience and specialization in architectural design and decoration for commercial spaces, the TECS team has worked on a wide range of projects, including:

- Hospitality establishments
- Food and beverage spaces (cafés, bars, restaurants, bakeries, patisseries)
- Exhibition spaces and booths
- Retail stores and showrooms
- Shopping centers
- Hair salons, beauty centers, and spas
- Educational institutions and centers
- Recreational and gaming spaces
- Office spaces
- Pharmacies
- Diagnostic centers and clinics

Architecture & Interior Design of Residences

We are at your disposal to create together the home of your dreams!

By designing based on your needs, aesthetics, and budget, we ensure the result that meets your requirements. A result perfectly harmonized with the aesthetics and architecture of the surrounding environment and location, always considering the principles of bioclimatic design and the latest technologies in materials, construction methods, and mechanical installations.

We specialize in designing new urban and rural residences, renovating existing (including preserved) structures, and refurbishing apartments. Our goal is to achieve an excellent outcome that connects people with their space!
